General Policies

Organizational Structure

The Role of the Board

The Central Oklahoma Workforce Innovation Board is governed by its Board of Directors, which is responsible for the oversight of the Organization by:

1. Planning for the future
2. Establishing broad policies
3. Identifying and proactively dealing with emerging issues

4. Interpreting the Organization's mission to the public
5. Contracting for the Chief Executive Officer

The Board is responsible for hiring and periodically evaluating the Organization's Chief Executive Officer, who shall be responsible for the day-to-day oversight and management of Central Oklahoma Workforce Innovation Board.

Committee Structure

The Board shall form committees in order to assist the Board in fulfilling its responsibilities. These committees represent vehicles for parceling out the Board's work to smaller groups, thereby removing the responsibility for evaluating all of the details of particular issues from the full Board's consideration. Ad hoc committees that are time and focus limited may be created from time to time to act on specific functions for the organization. Formal Committees of Central Oklahoma Workforce Innovation Board consist of the following:

1. Executive Committee

Specific guidelines regarding the composition and election of the Board and committees are described in the Organization's by-laws. However, roles of committees with direct responsibilities for the financial affairs of the Organization are further described in this manual. These committees shall be referred to in appropriate sections of this manual.

The Roles of the Chief Executive Officer and Staff

The Board hires the Chief Executive Officer, who reports directly to the Board. The Chief Executive Officer is responsible for the hiring and annual evaluation of all employees of the agency. The Chief Executive Officer may delegate this responsibility to any other employee as needed.

Program Managers' Responsibilities

Program Managers are responsible for the proper oversight of program expenditures of grant funds incident to their area of responsibility and in accordance with funding source guidelines and Agency fiscal policies. They are further responsible for the management of allocated funds; ensuring funds stay within line items in their budget, and authorizing the proper funding source and category in discharging financial obligations to the Accounting Department. The

development of program budgets is the responsibility of the Chief Executive Officer with final approval by the Board and Board of Chief Elected Officials (BCEO). Programmatic records will be retained for a period of three years after the audit and/or resolution of any audit related findings.

Fiscal Management Responsibilities

The Chief Executive Officer is responsible for establishing and administering procedures necessary to comply with the Fiscal Policies of the Board and the various funding sources. Coordination shall exist between the Chief Executive Officer, Controller, the BCEO and the Officers of the Board. Specific responsibilities include the maintenance of financial records, payment of bills, payrolls and all standard accounting methods. In addition, the processing of monthly financial statements and financial projections for the Chief Executive Officer shall be accomplished by the Controller. Procedures established are directed towards the accountability of all funds received and disbursed on behalf of the agency and its mission.

It shall be the responsibility of the Controller to retain all financial records for a period of three years after the audit and/or resolution of any audit related findings.

Employees' Responsibilities

All employees of the agency are responsible for the timely and accurate completion of fiscal documents and forms. These should be completed in an efficient, cost effective manner ensuring that public funds are properly expended toward achievement of the mission of the agency.

Business Conduct

Practice of Ethical Behavior

Unethical actions, or the appearance of unethical actions, are unacceptable under any conditions. The policies and reputation of Central Oklahoma Workforce Innovation Board depend to a very large extent on the following considerations.

Each employee must apply his/her own sense of personal ethics, which should extend beyond compliance with applicable laws and regulations in business situations, to govern behavior where no existing regulation provides a guideline. It is each employee's responsibility to apply common sense in business decisions where specific rules do not provide all the answers. (see employees' code of conduct) The Chief Executive Officer is responsible for the ethical business behavior of his/her subordinates and must weigh carefully all courses of action suggested in ethical, as well as economic terms, and base his/her final decisions on the guidelines provided by this policy, as well as his/her personal sense of right and wrong.

Internal Controls

COWIB has established and maintains effective internal controls in accordance with 20 CFR §200.303 to ensure proper management of federal awards and compliance with all applicable federal and state statutes, regulations, and grant terms. These internal controls provide reasonable assurance that funds are used appropriately, financial and programmatic reporting is accurate, and risks of fraud, waste, and abuse are minimized. As part of its oversight responsibilities, COWIB evaluates and monitors sub-recipients' compliance with all relevant laws, regulations, and grant conditions to ensure accountability and program integrity. In instances where noncompliance is identified, whether through routine monitoring, audits, or other oversight activities, COWIB takes prompt corrective action to address deficiencies and prevent recurrence. These measures uphold the integrity of workforce development programs, ensuring that resources are effectively managed and used to support job seekers and employers in the region.

Here are specific internal controls that COWIB has implemented to ensure compliance with federal and state regulations:

Financial Controls:

1. **Segregation of Duties** – Ensuring no single individual has control over all aspects of financial transactions (e.g., separate personnel for authorizing, processing, and reviewing transactions).
2. **Budgetary Controls** – Requiring board approval for budget allocations and monitoring expenditures against the approved budget.
3. **Cash Management Procedures** – Implementing policies for drawdowns, reconciliations, and allowable costs to ensure proper handling of federal funds.
4. **Reconciliation Processes** – Performing monthly bank reconciliations and financial reviews to detect discrepancies or irregularities.
5. **Procurement Controls** – Following competitive procurement procedures, including conflict-of-interest policies, to ensure fair vendor selection and appropriate use of funds.

Programmatic Controls:

6. **Sub-Recipient Monitoring** – Conducting regular site visits, desk reviews, and performance evaluations of service providers to ensure compliance with WIOA and grant requirements.
7. **Performance Tracking** – Implementing data validation processes to ensure the accuracy of participant and program outcome reporting.
8. **Eligibility Verification** – Requiring documentation and system checks to verify participant eligibility for WIOA services.
9. **Case File Audits** – Reviewing participant case files to ensure proper documentation, service delivery, and adherence to policies.
10. **Incident Reporting** – Establishing a system for reporting and addressing programmatic or ethical concerns, including fraud, waste, and abuse.

Compliance & Risk Management Controls:

11. **Conflict of Interest Policies** – Enforcing strict guidelines for board members, staff, and service providers to disclose and manage potential conflicts of interest.
12. **Corrective Action Procedures** – Implementing a structured process for addressing findings from monitoring reviews and audits, including required corrective action plans.
13. **Training & Staff Development** – Providing ongoing training on financial management, compliance requirements, and best practices for staff and sub-recipients.
14. **Document Retention & Accessibility** – Ensuring records are maintained in accordance with federal and state retention policies and accessible for audit and monitoring purposes.
15. **Whistleblower Protections** – Encouraging staff and stakeholders to report concerns without fear of retaliation through established reporting mechanisms.

These internal controls help COWIB ensure compliance with grant requirements, prevent misuse of funds, and maintain the integrity of workforce programs.

Conflicts of Interest

In addition, no employee, officer, agent or member of the board of Central Oklahoma Workforce Innovation Board shall participate in the selection, award, or administration of a contract involving Central Oklahoma Workforce Innovation Board if a real or apparent conflict of interest would be involved. Such a conflict would arise when the employee, officer, or agent, or any member of his/her immediate family, his or her partner, or an Organization that employs or is about to employ any of the parties indicated herein, has a financial or other interest in the firm selected. All employees and Board Members are required to sign a conflict of interest form.

Compliance with Laws, Regulations, and Organization Policies

The Central Oklahoma Workforce Innovation Board does not tolerate the willful violation or circumvention of any Federal, state, local, or foreign law by an employee during the course of that person's employment; nor does the Organization tolerate the disregard or circumvention of Central Oklahoma Workforce Innovation Board policy or engagement in unscrupulous dealings. Employees should not attempt to accomplish by indirect means, through agents, or intermediaries, that which is directly forbidden.

Implementation of the provisions of this policy is one of the standards by which the performance of all levels of employees will be measured.

Disciplinary Action

Failure to comply with the standards contained in this policy or any other policy will result in disciplinary action that may include termination, referral for criminal prosecution, and reimbursement to the Organization or to the government, for any loss or damage resulting from the violation. As with all matters involving disciplinary action, principles of fairness will apply. Any employee charged with a violation of this policy will be afforded an opportunity to explain her/his actions before disciplinary action is taken.

Disciplinary action will be taken:

Responsibilities for Billing and Collection/Request for Funds

The Accounting Department will ensure that an adequate cash flow exists to meet our obligations. Each funding source has established requirements for requesting funds. Requests must be submitted on time. Amounts requested for the next period will be based on the projects cash requirements after recognizing the current cash balance, current liabilities, and the future period expected expenditures.

Posting of customer invoices to the accounts receivable subsidiary ledger shall be performed by individuals independent of the cash receipts function of Central Oklahoma Workforce Innovation Board.

Posting of credit memos and other adjustments to vendor accounts receivable shall also be performed by an individual independent of the cash receipts function of Central Oklahoma Workforce Innovation Board and approved by the Controller.

Classification of Income

All income received by Central Oklahoma Workforce Innovation Board is classified as "unrestricted", with the exception of the following:

1. Grants and other awards received from government agencies or other grantors, which are classified as temporarily restricted; and
2. Special endowments received from donors requesting that these funds be restricted for specific purposes.

From time to time, Central Oklahoma Workforce Innovation Board may raise other forms of contribution income which carry stipulations that Central Oklahoma Workforce Innovation Board utilize the funds for a specific purpose or within a specified time period identified by the donor of the funds. When this form of contribution income is received, Central Oklahoma Workforce Innovation Board shall classify this income as *Temporarily Restricted* income.

As with all Temporarily Restricted equity, when the restriction associated with a contribution has been met (due to the passing of time or the use of the resource for the purpose designated by the donor), Central Oklahoma Workforce Innovation Board will reclassify the related equity from "Temporarily Restricted" to "Unrestricted" in its Statement of Financial Position and reflect this reclassification as an activity in its Statement of Activities.

Cash Receipts

Overview

Cash (including checks payable to the Organization) is the most liquid asset the Organization has. Therefore, it is the objective of Central Oklahoma Workforce Innovation Board to establish and follow the strongest possible internal controls in this area.

Processing of Checks and Cash Received in the Mail

For funds that are received at Central Oklahoma Workforce Innovation Board cash receipts are immediately forwarded to the Controller/ Accounting Clerks to ensure cash is recorded in the cash receipts log and deposited on a timely basis.

Mail is opened and a listing of cash/checks received shall be prepared in an open area, in the presence of other employees, and under the supervision of the Controller. The individual preparing the daily list of receipts shall be someone that is involved in the accounts receivable or accounts payable process.

The Accounting Department will prepare and code the duplicate deposit slips from the cash/checks received and compare them to the daily receipts listing for discrepancies. Deposits are prepared and taken to the bank on a daily basis by an individual other than the employee who prepared the daily cash receipts listing.

The Accounting Department will maintain a file of all recorded deposits.

The Accounting Department will prepare a journal entry or cash receipt to record all direct deposits transactions.

Endorsement of Checks

It is the policy of Central Oklahoma Workforce Innovation Board that all checks received that are payable to the Organization shall immediately be restrictively endorsed by the individual who prepares the daily receipts listing. The restrictive endorsement shall be a rubber stamp that includes the following information:

1. For Deposit Only
2. Central Oklahoma Workforce Innovation Board
3. The bank name

Timeliness of Bank Deposits

It is the policy of Central Oklahoma Workforce Innovation Board that bank deposits will be made on a daily basis.

Reconciliation of Deposits

On a periodic basis, the Controller/ Accounting Clerks who does not prepare the initial cash receipts listing or bank deposit, shall reconcile the listings of receipts to bank deposits reflected on the monthly bank statement. Any discrepancies shall be immediately investigated.

Note: This policy is intended as a supplement to, not a part of, the monthly bank reconciliation process. The intention is to establish an additional periodic reconciliation

designed to identify any instances in which funds received and logged in were not deposited in a timely manner to the Organization's bank accounts.

Receipts

Receipts must be issued for all incoming cash delivered to the Accounting Department.

Accounts Receivable Management

Monitor and Reconciliations

On a monthly basis, a detailed accounts receivable report (showing aged, outstanding invoices by customer) is generated and reconciled to the general ledger by the accounting department. All differences are immediately investigated and resolved, and the Controller reviews the reconciliation.

Collections

Collections are performed on a monthly basis, according to a review of the outstanding items shown on the accounts receivable aging report. This report shows the current month's activity for each customer and prior months' balances outstanding for 30, 60, 90, and 120 days.

Credits and Other Adjustments to Accounts Receivable

From time to time, credits against accounts receivable from transactions other than payments and bad debts will occur. Examples of other credits include write offs, denials and adjustments for billing errors. All credits shall be processed by an employee who is independent of the cash receipts function. In addition, all credits shall be authorized by the Controller.

Accounts Receivable Write-Offs Authorization Procedures

It is the policy of Central Oklahoma Workforce Innovation Board to ensure that all available means of collecting accounts receivable have been exhausted before write-off procedures are initiated. If an account receivable is deemed uncollectible, the Chief Executive Officer must approve before the write-off is processed.

If write-off procedures have been initiated, the following accounting treatment applies:

1. Current year invoices that are written off will either be charged against an appropriate revenue or revenue adjustment account or against the original account credited.
2. Invoices written off that are dated prior to the current year will be treated as bad debt and will reduce the allowance for doubtful accounts, discussed in the next section.

Reserve for Uncollectible Accounts

It is the policy of Central Oklahoma Workforce Innovation Board to maintain a reserve for uncollectible accounts receivable. At the end of each fiscal year, the allowance for doubtful accounts is adjusted based on the following factors:

1. An analysis of outstanding aged accounts receivable
2. Historical collection and bad debt experience
3. Evaluations of specific accounts based on discussions with the department that originated the sale/service resulting in the receivable

Year-end adjustments to the reserve for uncollectible accounts shall be performed only with authorization and by the Controller.

This reserve account is used in the following year to write off those items that are deemed uncollectible from the prior year after further collection efforts have been abandoned, as described earlier.

It is the policy of Central Oklahoma Workforce Innovation Board to complete the bank reconciliation process, including the resolution of any errors or omissions.

All bank reconciliations, including any adjusting journal entries resulting from preparing bank reconciliations, are reviewed by the Controller on a monthly basis.

Bank reconciliations and copies of resulting journal entries are filed in the current year's accounting files.

The Controller will be notified of all outstanding checks over one (1) year. Outstanding checks more than one year old will be reviewed and written off if appropriate. The Controller will notify the Chief Executive Officer of any checks that are to be written off.

Cash Flow Management

The Controller monitors cash flow needs on a weekly basis to eliminate idle funds and to ensure that payment obligations can be met. Cash transfers between accounts are performed on an as-needed basis.

Cash Draw Requests:

1. **Minimize Cash on Hand:** Subrecipients should draw only the cash needed to cover allowable expenses that are immediately payable, avoiding any accumulation of excess funds. This minimizes the time between the receipt of federal funds and their disbursement, in compliance with 2 CFR 200.305(b).
2. **Utilize Available Resources First:** According to 2 CFR 200.305(b)(5), all available resources, including program income, rebates, refunds, contract settlements, audit recoveries, and interest earned, must be used before requesting additional federal funds.
3. **Working Capital Advance Restrictions:** The working capital advance method should not be used if there is an inability or unwillingness to make timely payments, as this can result in excessive cash on hand. Requests for cash draws should be for amounts that match actual expenditures that will be immediately disbursed.
4. **Cash Draw Requests:** Subrecipients may submit draw requests as necessary to ensure timely payment of allowable expenses. Each draw request should be calculated to cover actual, immediate disbursements to avoid accumulating excessive cash.

Program Income

Program income means gross income earned by the non-Federal entity that is directly generated by a supported activity or earned as a result of the Federal award during the period of performance.

Program income includes:

- Receipts from goods or services (including conferences) provided because of activities funded under this title;
- Funds provided to a service provider under this title that are in excess of the costs associated with the services provided; and
- Interest income earned on funds received under this Title. WIOA Sec. 194(7)(B)(i)(ii)(iii).
- Any excess revenue over costs incurred for services provided by a governmental or non-profit entity. 20 CFR 683.200 (a)(7).

Program income does not include:

- Rebates, credits, discounts, refunds, etc. or interest earned on any of them.
- Such funds must be credited as a reduction of costs if received during the same funding period that the cost was initially charged. Credit received after the funding period must be returned to the Oklahoma Employment Security Commission (OESC).

Use of Program Income:

1. Section 194(7)(A) states that, "Income undbider any program administered by a public or private nonprofit entity may be retained by such entity only if such income is used to continue to carry out the program."
2. Allowable expenditures for program income are the same as those for the grant. The administrative cost limit does not apply to program income. The administrative cost limit for the program is calculated based on the total allocation or grant amount, not on the amount available for expenditure that includes program income.
3. On a fee-for-service basis, employers may use local area services, facilities, or equipment funded under Title I of WIOA to provide employment and training activities to incumbent workers:
 - a. When the services, facilities, or equipment are not being used by eligible participants;
 - b. If their use does not affect the ability of eligible participants to use the services, facilities, or equipment; and
 - c. If the income generated from such fees is used to carry out the programs authorized under this title. 20 CFR 683.200(a)(9).
4. When the cost of generating program income has been charged to the program, the gross amount earned must be added to the WIOA program. However, the cost of generating program income must be subtracted from the amount earned to establish the new amount of program income available for use under the grants when these costs have not been charged to the WIOA program. 20 CFR 683.200(a)(6).

Reporting Requirements:

Each WIOA grant recipient is required to submit Monthly Accrued Expenditure Reports to the OESC. These reports must include any income or profits earned. Any cash-on-hand from program income must be liquidated before requesting additional cash. Program income generated during the life of a specific allocation must be expended before the end of the availability of the funds. Any unexpended funds must be returned to the OESC.

Inventory

A fiscal inventory of equipment and fixed assets will be prepared bi-annually. The report will list the equipment and fixed assets and show a total value of the inventory. The material dollar value of equipment to be recorded for inventory purposes is \$5,000 dollars. (see Property p. 55)

Budgeting

A budget should be designed and prepared to direct the most efficient and prudent use of the Organization's financial and human resources. A budget is a management commitment of a plan for present and future organizational activities that will ensure survival. It provides an opportunity to examine the composition and viability of the Organization's programs and activities simultaneously in light of the available resources.

Preparation and Adoption

The distribution of salaries and wages to awards must be supported by time sheets. Reports reflecting the distribution of activity of each employee must be maintained for all staff members, professional and non-professional, whose compensation is treated as direct costs or indirect costs.

Direct Costs

Salaries and wages are charged directly to the program in which work has been done. This time distribution system allows the time of staff working on administrative activities that benefit all funding streams, to be charged to an administrative cost pool. Unallowable time is charged directly to local funds. On a monthly basis, compensation costs placed in the administrative cost pool is distributed based on the relative time charges that are identified and charged to specific grant funds.

3. Professional Services Costs (such as consultants, accounting, and auditing services) – All professional service costs are charged directly to the program(s) for which the service was incurred. Costs that benefit all programs are placed in a indirect cost pool and allocated to grants and programs on a monthly basis based on relative total direct cost (TDC) charges to that grant or program for the current month.
4. Office Expense and Supplies (including photocopier, office supplies, and postage) – Expenses used for a specific program(s) will be charged directly to that program.

Postage expenses are charged directly to programs to the extent possible. Costs that benefit all programs are placed in a cost pool and allocated in the same manner as professional services.

6. Facilities Expenses – Facilities costs, including rent, are placed in a cost pool and allocated in the same manner as professional services.

8. Unallowable costs – all unallowable costs will be charged to local funds and not allocated via the above cost allocation methodology.
9. Indirect cost limitations – in the event that a grant or programs either does not allow indirect costs to be charged to the grant or program or the budgetary limitation has been reached, the amount of indirect cost that would have been charged to that grant or program will be charged to local funds and not allocated to other grants.

Documentation

Wages and Fringe benefits - Time Sheets will be maintained for each individual whose time is charged to various programs. Percentages of funding amounts, employees, and accounts payable transactions will be reviewed and updated monthly for allocation purposes.

Cost Distribution Methodology

Every year a review of allocated costs charged to the various program will be completed to determine that a reasonable and equitable amount of indirect costs has been charged to each (all) benefited grants or programs. Should there be no changes required the CEO/ Executive Director, no action is necessary. Charging of Costs to Federal Awards

Overview

It is the policy of Central Oklahoma Workforce Innovation Board that only costs that are reasonable, allowable, and allocable to a Federal award shall be charged to that award directly or indirectly. All unallowable costs shall be appropriately segregated from allowable costs in the general ledger in order to assure that unallowable costs are not charged to Federal awards.

Segregating Unallowable from Allowable Costs

The following steps shall be taken to identify and segregate costs that are allowable and unallowable with respect to each Federal award:

1. The budget and grant or contract for each award shall be reviewed for costs specifically allowable or unallowable.
2. Accounting personnel shall be familiar with the allowability of costs provisions of Uniform Administrative Requirements, particularly:
 - a. The list of specifically unallowable costs such as alcoholic beverages, bad debts, contributions, fines and penalties, lobbying, etc.
 - b. Those costs requiring advance approval from Federal agencies in order to be allowable such as foreign travel, equipment purchases, etc.
3. No costs shall be charged directly to any Federal award until the cost has been determined to be allowable under the terms of the award and/or Uniform Administrative Requirements.
4. For each Federal award, an appropriate set of general ledger accounts shall be established in the chart of accounts of Central Oklahoma Workforce Innovation Board to reflect the categories of allowable costs identified in the award or the award budget.
5. All items of miscellaneous income or credits, including the subsequent write-offs of uncashed checks, rebates, refunds, and similar items, shall be reflected for grant accounting purposes as reductions in allowable expenditures if the credit relates to charges that were originally charged to a Federal award or to activity associated with a Federal award. The reduction in expenditures shall be reflected in the year in which the credit is received (i.e. if the purchase that results in the credit took place in a prior period, the prior period shall not be amended for the credit.)

Criteria for Allowability

It is the policy of Central Oklahoma Workforce Innovation Board that all costs must meet the following criteria in order to be treated as allowable direct or indirect costs under a Federal award:

1. The cost must be “reasonable” for the performance of the award, considering the following factors:
 - a. Whether the cost is of a type that is generally considered as being necessary for the operation of the Organization or the performance of the award;
 - b. Restraints imposed by such factors as generally accepted sound business practices, arm’s length bargaining, Federal and state laws and regulations, and the terms and conditions of the award;
 - c. Whether the individuals concerned acted with prudence in the circumstances;
 - d. Consistency with established policies and procedures of the Organization, deviations from which could unjustifiably increase the costs of the award.
2. The cost must be “allocable” to an award by meeting one of the following criteria:
 - a. The cost is incurred specifically for a Federal award
 - b. The cost benefits both the Federal award and other work, and can be distributed in reasonable proportion to the benefits received or
 - c. The cost is necessary to the overall operation of the Organization, but, where a direct relationship to any particular program or group of programs cannot be demonstrated
3. The cost must conform to any limitations or exclusions of the Uniform Administrative Requirements or the Federal award itself
4. Treatment of costs must be consistent with policies and procedures that apply to both federally financed activities and other activities of the Organization
5. Costs must be consistently treated over time.
6. The cost must be determined in accordance with generally accepted accounting principles (GAAP)
7. Costs may not be included as a cost of any other federally financed program in the current or prior periods
8. The cost must be adequately documented

Cost Sharing and Matching

It is the policy of Central Oklahoma Workforce Innovation Board to value contributed services and property that are to be used to meet a cost sharing or matching requirement at their fair

market values at the time of contribution, unless award documents or Federal agency regulations identify specific values to be used.

Certain Agency programs are required to have a matching share of in-kind services and donated space to meet Federal guidelines.

Central Oklahoma Workforce Innovation Board shall claim contributions as meeting a cost sharing or matching requirement of a Federal award only if all of the following criteria are met

1. They are verifiable from Central Oklahoma Workforce Innovation Board records
2. They are not included as contributions for any other federally assisted project or program.
3. They are necessary and reasonable for proper and efficient accomplishment of project or program objective.
4. They are allowable under the Uniform Administrative Requirements.
5. They are not paid by the Federal government under another award, except where authorized by Federal statute to be used for cost sharing or matching.
6. They are provided for in the approved budget when required by the Federal awarding agency.
7. They conform to all provisions of Uniform Administrative Requirements.
8. In the case of donated space, the space is subject to an independent appraisal to establish its value.

Contributed services used for cost sharing or matching purposes shall be valued at rates consistent with those rates paid for similar work in the Organization (match up experience and skill level), including an estimate of reasonable fringe benefits. In cases in which the required skills are not found in the Organization, rates used shall be consistent with those paid for similar work in the labor market in which Central Oklahoma Workforce Innovation Board competes.
